

Point of Sale

Digital Dining Delivers Uncompromising Functionality to Restaurateurs—Increasing Productivity, Minimizing Errors and Driving Profits

Industry-Leading POS Software

Digital Dining has been successfully serving the restaurant industry for more than 30 years. Whether you operate one restaurant or manage a multi-unit enterprise of up to 100 locations, Digital Dining is committed to helping your business prosper by delivering fast and secure point-of-sale solutions. In addition to its powerful agnostic platform and impressive customization capabilities, the Digital Dining user interface is also user-friendly.

We support a wide array of food service customers—from fine dining, quick serve and casual dining to hotels, country clubs, food courts, hospitals, universities and others in the hospitality industry.

Digital Dining Features

- Time Clock
- Fast EMV Payments
- Inventory
- Reporting
- Table Management
- Tablet Point of Sale (POS)
- Pay at the Table
- Online Ordering
- Property Management System (PMS) Interface
- Gift Cards, Loyalty and more (continued on back)

Digital Dining's hardware-agnostic platform is designed to run on traditional and mobile tablet terminals and integrates with Heartland EMV payments (wired and wireless formats), Heartland Payroll, CRM, Heartland Gift Card and Heartland Gift+Rewards. You can choose Apple or Windows on many handheld devices.

Whether it's Table Management, Reservations, Delivery and Online Ordering, Labor Scheduling or Inventory Control, Digital Dining will increase staff productivity and drive your profits to new levels.

Digital Dining is available as SaaS (Software as a Service) or PaaS (Platform as a Service) with hardware.
